SUMMARY

B.Tech Computer Science graduate and aspiring Data Analyst with hands-on experience in Python, SQL, Excel, Power BI and Machine Learning. Built multiple projects involving data cleaning, EDA, SQL analysis, KPI development, and interactive dashboards, processing 4,000+ records to transform raw customer, sales, HR, and healthcare data into actionable business insights, performance metrics, and data-driven recommendations.

EXPERIENCE

Data Analyst Intern | BeeSkilled – Remote

June 2026 – July 2026

- Completed 4 analytics projects using **Python/Pandas, SQL, and EDA** for data cleaning and analysis.
- Cleaned and transformed **raw datasets** for the final capstone using Python/Pandas and SQL.
- Built an interactive **Power BI dashboard** with KPIs, visualizations, and business insights.
- Documented projects through **READMEs**, methodology, findings, and walkthroughs.

EDUCATION

Indore Institute Of Science and Technology

July 2023 – July 2027

Bachelor of Technology in Computer Science and Engineering (CGPA: 7.65)

Saraswati Bal Vinay Mandir Higher Secondary School

April 2023

Class XII (Percentage: 85%)

TECHNICAL SKILLS

Programming Languages : Python, SQL

Libraries : Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

Database and Tools : MySQL, Microsoft Office (Word, Power Point)

Data Analysis Tools : Excel (Advanced Analysis, Pivot Tables, XLOOKUP, VLOOKUP, VBA, Macros, Power Query), Power BI (DAX, Data Modeling, KPI, Interactive dashboards)

Platforms : Visual Studio, GoogleColab, Jupyter Notebook, Kaggle, Git, GitHub

SOFT SKILLS

Data Cleaning | Data Integrity | Data Manipulation | Data Warehousing | Data Storytelling | Data Visualization | Exploratory Data Analysis (EDA) | Data Validation | ETL (Extract, Transform, Load) | Statistical Analysis | Business Insights

PROJECTS

HR Employees Attrition Analysis | Excel, Python, SQL, Power BI

[Live Dashboard](#)

- Analyzed 1,470 employee records to identify attrition patterns across demographics, roles, compensation, satisfaction, overtime, and tenure.
- Cleaned and analyzed HR data using Excel, Python/Pandas, Matplotlib, and SQL, answering **14 business questions**.
- Built a Power BI dashboard with **6 KPIs** to track attrition, workforce trends, and high-risk employee segments.

Customer Behavior Analysis | Python, SQL, Power BI

[Live Dashboard](#)

- Analyzed **3,900 customer records** to identify purchasing patterns, customer segments, category performance, and subscription trends.
- Cleaned and transformed data using **Python/Pandas** and performed **8+ MySQL analyses** across revenue, demographics, categories, and customer behavior.
- Built an interactive Power BI dashboard with **8 KPIs** using **DAX and Power Query** to track customer and category performance.

Heart Disease Analysis Dashboard | Power BI, Power Query, DAX

[Live Dashboard](#)

- Analyzed **1,024 patient records** to identify heart disease patterns and key risk factors across age, gender, cholesterol, blood pressure, and lifestyle indicators.
- Performed **Data Cleaning, Exploratory Data Analysis, and Data Visualization** using Python, Pandas, Matplotlib, and Seaborn to evaluate patient risk factors and trends.
- Identified key **heart disease risk patterns** through statistical and categorical analysis, supporting data-driven insights into patient demographics and clinical indicators.

CERTIFICATIONS

- Gen AI Powered Data Analytics Job Simulation by Tata Forage – [View Credentials](#)
- SQL (Intermediate) Certificate by HackerRank – [View Credentials](#)
- SQL (Basic) Certificate by HackerRank - [View Credentials](#)
- Cisco Networking Academy Python Essential1 course – [View Credentials](#)
- Cisco Networking Academy Python Essential2 – [View Credentials](#)
- IBM SQL and Relational Databases 101 – [View Credentials](#)
- AWS Cloud Foundation – [View Credentials](#)

ACHIEVEMENTS

- Secured 2nd position in the Poster Making Competition “Visual Vista Showcase” during Tech-o-tsav 2024.
- Earned the SQL (Intermediate) Certification from HackerRank.
